

First take the picture and use it with binwalk

binwalk flag.png

```
DECIMAL HEXADECIMAL DESCRIPTION
0
       0x0
                  PNG image, 512 x 504, 8-bit/color RGBA, non-interlaced
        0x29
41
                   Zlib compressed data, compressed
          0x9B3B
39739
                      Zip archive data, at least v1.0 to extract, name: secret/
                      Zip archive data, at least v2.0 to extract, compressed size: 2944, uncompressed size: 3095, name: secret/flag.png
39804
          0x9B7C
42983
          0xA7E7
                      End of Zip archive, footer length: 22
```

binwalk -e flag.png --run-as=root

```
DECIMAL HEXADECIMAL DESCRIPTION
0
       0x0
                  PNG image, 512 x 504, 8-bit/color RGBA, non-interlaced
        0x29
                   Zlib compressed data, compressed
41
39739
          0x9B3B
                      Zip archive data, at least v1.0 to extract, name: secret/
                      Zip archive data, at least v2.0 to extract, compressed size: 2944, uncompressed size: 3095, name: secret/flag.png
39804
          0x9B7C
42983
          0xA7E7
                      End of Zip archive, footer length: 22
```

Then we will get a folder and in there will be the flag
